### Bluetooth Connectivity

Seamlessly connect to your phone or other devices with efficient Bluetooth technology.

### Energy Efficient

Our LED technology is designed for sustainability, ensuring your magical nights are also eco-friendly.

### Favorites and Presets

Instantly access your top 5 favorite colors or explore personalized presets courtesy of The Outdoor Plus.

Unleash outdoor brilliance with The Outdoor Plus App. Explore dynamic color modes, personal favorites, and an extensive color palette for an unmatched outdoor experience.

## STEP 1:

Download the **The Outdoor Plus App**.

Open the App once installation is complete.

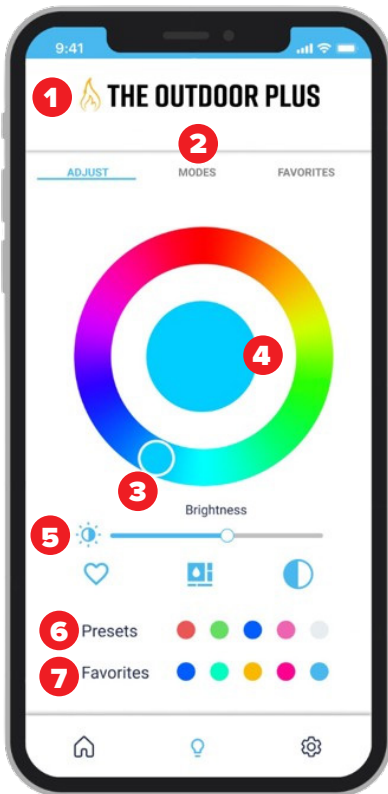

## STEP 2:

Within the app, tap the gear icon  to go to **Settings** and select **Nearby Devices**. Ensure your location is enabled and select **AAV RGB** to connect.

Begin exploring The Outdoor Plus App!

## EXPLORING APP FUNCTIONALITIES:

### 1. On/Off Switch

Easily power your LED lights on or off with the designated switch.

### 2. Mode Options

Select dynamic modes like 'Party' or 'Strobe' for an electrifying experience.

### 3. Color Adjuster

Glide the adjuster across the Color Wheel for a seamless color change.

### 4. Color Preview

Preview selected colors as you glide the color adjuster.

### 5. Brightness

Adjust brightness levels effortlessly to set the perfect lighting intensity.

### 6. Preset Colors

Access a variety of pre-defined colors for quick and convenient lighting choices.

### 7. Personal Favorites

Create a personalized ambiance by choosing and saving custom color combinations.

## PRO TIPS:

- Keep your device's Bluetooth turned on and within proximity of the lights for a stable connection.
- Update the app regularly to access new features and enhancements.
- Experiment with different color combinations and effects to fully enjoy the ambiance.
